ESSENTIAL STRETCH WORKWEAR

WX2TM

ESSENTIAL STRETCH WORKWEAR

ESSENTIAL STRETCH WORKWEAR

WX2™ is a new essential eco conscious workwear collection, designed to empower workers to conquer any environment.

All products are constructed using GRS recycled fabrics and are available in a number of colourways allowing wearers to choose a colour to suit their professional environment.

The use of advanced technologies and 4 way stretch fabrics allows for greater flexibility and range of motion while also being robust and long-lasting, enabling wearers to face the elements with confidence. An Ideal solution for workers who appreciate good design and exceptional value.

Portwest's cutting edge Kingsmill™ Polyester Stretch is a four-way stretch fabric made from 93% polyester, 7% elastane. This blend provides ease of movement and effortless comfort in active use. The fabric delivers technical superiority with high breathability, moisture wicking and fast drying properties. A UPF rating of 40+ will block 98% of the UV rays.

The use of certified recycled or sustainable fabrics and trims, where possible, ensures minimal impact on the environment. Garments are designed for maximum comfort and performance but with a clean line involving minimal stitching details and reduced waste.

WX2 and Kingsmill are trademarks of Portwest.

Note: All WX2 Garments are Registered Community Designs
